## THE BAND

Coming from Ciudad Real (Spain), River Crow has a direct and striking sound, with riffs full of groove and strength that get to your bones. Their influences go from Black Sabbath to Pantera passing by Black Label Society or Metallica.

On January 2018 they start recording their first LP "No More Redemption" through the record label The Fish Factory (Avalanch, Topo, Jolly Joker...) from Madrid. Quickly they receive the compliments of specialized media and fans throughout the world and they sign onto an extensive tour throughout the peninsula during which they win the RESURRECTION FEST Band Contest de 2018.

2019 won't be less for River Crow as they are already confirmed for a numerous amount of festivals such as Southern Metal Fest, Wasteland Metal Fest, Old Skull Fest... proving with this that they have a long journey ahead and that its career is indeed an Endless Road.
